Summary

B.Tech Computer Science graduate skilled in **Full-Stack Development** and **Software Engineering** with expertise in **MERN stack (MongoDB, Express.js, React, Node.js)**, **Java**, and **Data Structures & Algorithms**. Proficient in building **scalable web applications, RESTful APIs, authentication systems, and cloud-based solutions**. Experienced with **cloud deployment (Render, Netlify)**, version control (Git, GitHub), and **CI/CD workflows**, with a focus on **backend development, API optimization, and modern full-stack development**.

SKILLS

- **Programming**: C, C++, Java, Python
- **Frontend**: HTML, CSS, JavaScript, React, Redux, Tailwind, Bootstrap
- **Backend**: Node.js, Express.js
- **Databases**: MySQL, MongoDB, Mongoose, Supabase, Firebase
- **Tools**: Git, GitHub, Postman, VS Code, Eclipse
- **Cloud & Deployment:** AWS, Netlify, Render, MongoDB Atlas

Projects

Heal Zone – Doctor Appointment Booking System | MERN Stack

- **Engineered** a full-stack web app for online consultations with **JWT & bcrypt authentication** and **role-based access control (RBAC)**.
- **Created** RESTful APIs for appointment scheduling and doctor management following **MVC architecture.**
- **Integrated** Razorpay payment gateway for secure transactions.
- **Outcome:** Deployed on **Netlify/Render**, handling multiple roles (patients, doctors, admins).

AI-powered Learning Management System (LMS) using MERN Stack

- Built a **full-stack AI-powered LMS** using **MERN Stack (MongoDB, Express.js, React.js, Node.js)** with dynamic student and instructor dashboards for real-time course management.
- Implemented **secure authentication** with **Google OAuth 2.0**, **OTP verification**, and **token-based password reset** for enhanced user security.
- Integrated **Razorpay payment gateway** for smooth course enrollment, backend validation, and real-time transaction tracking.
- Designed **responsive, modern UIs** using **React.js, Tailwind CSS**, and managed application state efficiently with **Redux Toolkit**.

AI Mock Interview Application

- Built a full-stack web app using Next.js and Convex, integrating Clerk for secure authentication and user management.
- Designed a modern UI with shadcn/ui and Tailwind CSS, ensuring responsive and consistent user experience.
- Automated AI interview question generation using n8n, dynamically tailoring questions from resumes and job descriptions.

EDUCATION

- **B. Tech (CSE)** | ABES Institute of Technology, Ghaziabad | *2021 – 2025*
- **XII (CBSE)** | KALA Niketan International School, Delhi | *2019 – 2020*
- **X (CBSE)** | KALA Niketan International School, Delhi | *2017 – 2018*

Certificate

Java with DSA

- Learned **Java fundamentals**, **OOP**, while practicing **Data Structures & Algorithms** including arrays, strings, linked lists, recursion, stacks, queues, sorting, and backtracking.

Full Stack Development

- Certified in Full-Stack Web Development with expertise in MERN stack, scalable applications, API development, authentication, state management, and cloud deployment.
